Ink Bamdoo Of Eastern (Lamp) takes the shape and intention of "bamboo knot" as the parent body of the lamp, and uses modern, fashionable copper and crystal glass as the material to create a lamp with a contemporary oriental charm. The neat-line lamp pole is inserted directly into the bamboo lamp body, and the bamboo knots are staggered horizontally and vertically, symbolizing the balance of yin and yang in gossip. "Beauty does not exist in objects, but in the shadowy ripples and light and dark produced by objects.

Soda water is used to trap air in a super heated glass matrix, which is vertically stretched and folded back onto itself between pegs numerous times. As the glass cools, the folding motion along the grain of the loop turns the entrapped air into microfilaments that give the piece a pearlescent optical quality.

The Lunar collection is an ode to the retro bazaar light bulb. Like the Aurora series that inspired it, the Lunar series consists of a variety of circular rings of different diameters. The unique design provides excellent practical lighting and is combined with a dimmer to become a mood lamp when needed.

Balloons, a collection of timeless lights embodying rudimental forms evoking images of hot air balloons, captivates with the beauty of large-format handblown glass and an elegant metal reflector hovering within. The design's charm lies in the use of two independent glass sections to achieve the impression of an integral whole. Lavish proportions and an elegant hand-pressed metal reflector are the collection's defining traits.

A combination of a robust marble base and an oval-shaped smoked glass dome. Designer found the inspiration for the soft curves of Karl-Johan while searching for wild mushrooms in an autumn forest – the shape of the lamp is indeed reminiscent of a mushroom. The poetic appearance and gentle light of Karl-Johan will complement any bedroom or add an elegant touch into the living room.
